Elecosoft®

Offer to transfer space for your data in the Eleco Cloud Server
Interactive 3D visualization of complex geometric data

Dear customer,

The o2c technology enables you to present three dimensional objects in a compact format at a very high speed. You can view 3D objects detailed from all angles, animate elements for presentation purposes and simulate complex movements. Store your projects in our cloud.

We submit the following <u>offer</u>:

> **As an Arcon customer, your expenses come to 10.- Euro plus VAT per month and will be charged in advance, settlement in a 6-month cycle.**

> **The minimum term for the provision of storage space is six months and is automatically extended by six months, if not cancelled in writing four weeks prior to expiry of the term.**

> **The maximum download volume is 500 MB per month.**
